

Emergency/Accident Kit

We suggest you secure a Emergency/Accident Kit inside your vehicle in case you have an accident. Simply secure the following items in a large (gallon size) Ziploc bag:

1. **Emergency numbers:** local police; your family doctors, hospital of your choice, family numbers, etc.
2. **Gels Law Top Ten List.** The top ten things to do if you are in an accident. In the event you are in an accident this list may greatly help you in your recovery.
3. **Disposable Camera** - (or many mobile/cellular telephones are equipped with cameras).
4. **Small first aid kit:** You can purchase a small first aid kit or simply include some items such as bandages, ointments, etc.

Additionally, you may want to have available the following items in case of a flat tire or car trouble:

5. **Mobile/cellular Telephone:** For safety we recommend always carrying a mobile telephone.
6. **Basic tools:** jumper cables, screw driver, pliers, an adjustable wrench.
7. **A shovel.**
8. **Blankets.**

We hope you never have an emergency or an accident, but it is best to be prepared.
